Weird, now I'm getting no scrape info

Just use:

Resources and Information regarding EPA's emergency response to the Gold King Mine release

Denise, since Jessica is out today I'm going to do my best on this.

Can you please put together a schedule of the follow social media for this week? Spread them out amongst each category. Let's do one tweet and FB post from the **main response** page and one **Press Releases** today.

Then starting tomorrow spread them out to 2-3 per day. For example you could do an **FAQs** early then **FAQ Human Health** mid morning followed by an afternoon **Local Resources**.
